

# PUBLIC SERVICES & CONTACT NUMBERS

Environmental Health conducts routine inspections and/or complaint investigations at commercial, residential and public sites throughout the County in an effort to protect the public's health. Although our food and housing inspection programs are the most recognizable, the department also monitors X-ray machines and other radiologic devices, beaches and swimming pools, small water systems, sanitary landfills, massage parlors, tattoo parlors, theaters, laundries, and more.

To inquire about our inspections, request general information, or make a complaint, please contact the appropriate program telephone number listed below.

To contact our FOOD or HOUSING Inspection Offices:

1. Call the general number listed below and you will be referred to the office in your area; or
2. You can use the attached City/Community guide to find the office in your area.
