

Center Will Close

Dear Family,

Many children and their families are very sick with the flu. Public health officials have ordered all home care, child care, and early care centers in Los Angeles County to close. They may be closed for days or even weeks to help stop the spread of flu. All children should stay home.

We know this is a hard time for our community and our hearts go out to those who are ill.

The flu spreads easily from person-to-person. Everyone should stay home and away from other people as much as it is possible. Children and teens should not meet with their friends in person. Encourage children and teens to “meet” by phone or over the Internet.

We know that it may be hard to get medical care or even be seen in a hospital emergency room. Please read the information we are sending home with your child about how to take care of someone who is sick with the flu.

For more information, call your health care provider or visit the Los Angeles County Public Health Department’s Website: www.publichealth.lacounty.gov, or you may call 2-1-1 (800) 339-6993 (Los Angeles County Referrals).

Please be sure the contact information we have for you is up-to-date. We will use this information to let you know when children will be allowed to return to the center. If you need to reach us, here are two ways you can contact the center:

Sincerely,
