**Department of Health Care Services
Children's Medical Services Network
(CMS Net) - Information Bulletin #341**

May 22, 2010 Change Cycle

The CMS Net applications will be down from 5:00 p.m., Friday, May 21st until 3:00 p.m., Saturday, May 22nd to implement changes included in the May 2010 change cycle.

Legacy

Patient Identification

- Issue with Patient Identification lookup has been fixed. The ability to search for CCS numbers that are less than 6 digits in length

CMS Net Web

Client Eligibility

- The Case Status field will not display Denied unless selected by the user.

MTP

- Create PTR Batch: When batching PTR(s), each page must be selected separately. However, all unbatched PTR(s) will go into one batch.
- When an MTP case is closed it will be indicated on the Patient Registration Face Sheet
- New frequencies have been added for Monitor Status: 3x/year 30 minutes, 3x/year 45 minutes, and 3x/year 60 minutes.
- Satellites will no longer show as the primary MTU in the Client Header.
- Delete multiple PTRs at one time

MTP Reports

Corrections have been made in the following reports:

1. MTP Caseload Report
2. Frequency
3. DME Tracking

4. MTU Closure
5. Medical Report Due (MTP)
6. OT/PT Case list
7. Master list
8. Unreviewed PTR's
9. Blank PTR
10. SUR

The following is a new report:

1. IEP Report
2. Conference Scheduling Report (New)

Caseload

- Caseload Transfer
 - Added the ability to transfer one or more cases from a caseload to another caseload.
 - Added the ability redistribute cases from one caseload through the caseload distribution logic
 - Added the ability to transfer a pre-defined number of random cases from one caseload to another
 - Added a prompt after temporary daily limits are entered to ask the user if they would like to go to Caseload Transfer to transfer cases
- Reports
 - Added a total to the last page of the Caseload Details Report
 - Added a new Caseload Summary Report
 - Correction to the Caseload History Report to display only one entry per date
 - Correction to the Caseload Distribution Management Report to exclude "Archive" caseload details
- Caseload Maintenance
 - Added the ability to relocate Organizational Units (OUs) within the caseload stricture by using a drop and drag
 - Added a search Caseload ID field
 - Modified the presentation of the OU stricture to be fully expanded one level when the page refreshes
 - Correction to the user security to allow those flagged as an Administrator of the OU to perform caseload transfers and updates

SAR

- Updated SAR form to print "modified" in the top right corner when an authorized SAR has been modified.

PEDI

- Added the "Initial Auth Date" and "Last Updated Date" to the client search results for SARs and the SAR detail report results
- Updated SAR form to print "modified" in the top right corner when an authorized SAR has been modified.
