Since August of 2016, DHSP funded ten agencies to enhance biomedical HIV prevention services for uninsured and underinsured Los Angeles County Residents. The following dashboards provide enrollment data for clients newly enrolled in biomedical prevention services during under the contract (September 30, 2016 through September 29, 2018) by treatment (PEP or PrEP), agency, HIV risk group, and demographic categories.

Note: These data only reflect clients receiving biomedical prevention services under each agency’s contract with DHSP. For example, the dashboards exclude clients who are not new to PrEP and/or PEP during the contract period. Furthermore, the data are not reflective of all persons taking PrEP or PEP in Los Angeles County.
CENTERS OF EXCELLENCE PrEP ENROLLMENT AND RETENTION
Clients newly enrolled in PrEP services between September 29, 2016 - September 29, 2018

Proportion of Enrollment Goal Achieved
3021 Clients Initiated PrEP

Proportion of PrEP Clients by HIV Risk Group
MSM 90%
Transgender 6%
HET 3%
Unknown 1%

PrEP Retention Average Length (in months) by Clinic

Percentage of Clients from Priority Groups

Number of PrEP Clients Enrolled by Clinic

Percentage of PrEP Clients by Age Group (in years)

*Includes all clients newly enrolled in PrEP Services at a PrEP Center of Excellence
Clients newly enrolled in PEP services between September 29, 2016 - September 29, 2018

**Percentage of Enrollment Goal Achieved**

- 39%

**1270 Clients Initiated PEP**

**8% Initiated PEP ≥ 2 times in a COE**

**Percentage of PrEP Clients by Age Group (in years)**

- 25-29: 32%
- 30-34: 23%
- 35-39: 13%
- 40+: 16%
- 13-19: 1%
- < 30 years of age: 48%

**Proportion of PEP Clients by Risk Group**

- Unknown: 1%
- Transgender: 3%
- HET: 11%
- MSM: 86%

**Number of PEP Clients Enrolled by Clinic**
