Reopening Safer at Work and in the Community for Control of COVID-19 Order: Examples of What’s Open in Los Angeles County

Through our Safer at Home efforts, we’d slowed the spread of Novel Coronavirus (COVID-19) in Los Angeles County, allowing for a phased reopening of some businesses and public spaces. However, there have been troubling increases in cases and hospitalizations and COVID-19 remains a serious risk. It is crucial that you practice physical distancing and wear a cloth face covering whenever you are or may be around others, and wash your hands frequently, to help prevent serious illness and death. Also, remember to stay home if you are sick or if you have been in close contact with someone who is sick.

The following are examples of public sites and activities that are open with required modifications and temporarily closed under the Order. When at these sites, you must follow requirements to help prevent spread of COVID-19. Click on the links to learn about these requirements.
