The County of Los Angeles Department of Public Health is adopting a staged approach, supported by science and public health expertise, to allow for people to start to use public spaces again in ways that will limit the risk of exposure to COVID-19. **Accordingly, the County of Los Angeles has reopened beaches in limited ways to allow residents increased outdoor recreation options.** Staying physically active is one of the best ways to keep your mind and body healthy. Using public beaches can be an important way to relieve stress, get some fresh air and vitamin D, stay active, and safely connect with nature. During the COVID-19 pandemic, it is crucially important that you follow these public health beach use requirements below in order to use beaches in a way that keeps you and others healthy.

**Public Health Requirements:**

1. Prepare before you visit the beach.
   a. Check to see which areas or services are open and bring what you need with you. Information on LA County beaches can be found at [beaches.lacounty.gov](http://beaches.lacounty.gov).
   b. Beaches are currently open only for solo and family active recreation which is limited to swimming, surfing, biking, running and walking.

2. Follow all beach rules, regulations and any posted access restrictions.

3. Plan to limit your time at the beach to permit others an opportunity to engage in active beach recreation without creating crowded conditions that could lead to beach closures.

4. Avoid crowded areas or crowding around others at the beach. Stay at least six (6) feet from others who are not members of your household at all times both in and out of the water.

5. Chairs, canopies, coolers, and grills are not allowed.

6. Gatherings of any size or other events are not allowed on the beaches including athletic competitions, youth camps or recreational programming.

7. You are allowed to enjoy the bike paths on the beach.

8. Concessions and food vending is not allowed.

9. Parking is allowed at beach parking lots at the discretion of the local jurisdiction. Be sure to comply with all parking regulations.

10. Everyone needs a face covering while out of the water if there are other people nearby. Infants and children under the age of 2 should **not** wear cloth face coverings. Those between the ages of 2 and 8 should use them under adult supervision to ensure that the child can breathe safely and to avoid choking or suffocation. Anyone who has trouble breathing or is otherwise unable to remove the face covering without assistance should not wear one.

11. Wash hands often with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol, especially after going to the bathroom, before eating, and after blowing your nose, coughing, or sneezing.

**Recent updates:**

5/22/20: Beach bike paths and Beach parking lots are now open at the discretion of the local jurisdiction.
12. Do not share beverages or food with others that are not in your household.

Recommendations when you to the beach:
13. Use sunscreen with at least SPF 15 and reapply if you stay out in the sun for more than two hours and after swimming, sweating, or toweling off.
14. Bring water and hand sanitizer or disinfecting wipes to wash or sanitize hands frequently.

Know where to get reliable information
Beware of scams, false news and hoaxes surrounding novel coronavirus. Accurate information, including announcements of new cases in LA County, will always be distributed by Public Health through press releases, social media, and our website. The website has more information on COVID-19 including FAQs, infographics and a guide to coping with stress, as well as tips on handwashing
