Reopening Protocol for Model Airplane Areas

The Los Angeles County Department of Public Health (Public Health) is calling on the public, all business owners and community organizations to support the reopening of businesses and public spaces. Through our collective Safer at Home efforts, we have successfully slowed the number of new COVID-19 cases and hospitalizations, allowing for a phased reopening of many aspects of regular life.

To aid in this transition, Public Health asks all Model Airplane Area operators to take appropriate steps to plan for reopening, in alignment with the Recovery Plan. The following issues are critical and must be addressed to ensure that workers and players reduce the risk of spread at model airplane areas:

(1) Protecting and supporting employee and customer health
(2) Ensuring appropriate physical distancing
(3) Ensuring proper infection control
(4) Communicating with the public
(5) Ensuring equitable access to services

These critical areas have been incorporated into the checklist below and must be implemented as required model airplane area protocols.

All Model Airplane Areas must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is not applicable.

Model Airplane Area name:

Facility Address:

A. RECOMMENDED RESTRICTIONS

☐ Physical distancing of six (6) feet is required at all times.
☐ Face coverings are required at all times.
☐ No group gatherings are allowed.
☐ No tournaments are allowed.
☐ Participants may only touch and handle their own model airplanes and gear.
☐ Doors, entrances, and/or gates shall remain open during normal operational hours.

If Employees or Staff are present on site:

☐ All employees have been told not to come to work if sick, or if they are exposed to a person who has COVID-19. Employees understand to follow DPH guidance for self-isolation and quarantine, if applicable. Workplace leave policies have been reviewed and modified to ensure that employees are not penalized when they stay home due to illness.
In the event of a known case among employees, the employer has a plan or protocol in place to isolate the case and to quarantine all employees that had a possible exposure to the case.

Upon being informed that one or more employees test positive for, or has symptoms consistent with COVID-19 (case), the employer has a plan or protocol in place to have the case(s) isolate themselves at home and require the immediate self-quarantine of all employees that had a workplace exposure to the case(s). The employer’s plan should consider a protocol for all quarantined employees to have access to or be tested for COVID-19 in order to determine whether there have been additional workplace exposures, which may require additional COVID-19 control measures.

Symptom checks are conducted before employees may enter the workspace. Checks must include a check-in concerning cough, shortness of breath or fever and any other symptoms the employee may be experiencing. These checks can be done remotely or in person upon the employees’ arrival. A temperature check should be done at the worksite if feasible.

All employees who have contact with the public or other employees during their shift(s) are offered, at no cost, a cloth face covering. The covering is to be worn by the employee at all times during the workday when in contact or likely to come into contact with others. Employees need not wear a cloth face covering when the employee is alone in a private office or a walled cubicle.

Employees are instructed to wash their face coverings daily.

Employees have been reminded to adhere to personal prevention actions including:

- Stay home when you are sick. Stay home for at least 3 days (72 hours) after recovery, which means your fever has resolved without the use of fever-reducing medications and there is improvement in your respiratory symptoms (e.g., cough, shortness of breath), AND at least 10 days have passed since your symptoms first appeared.

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use alcohol-based hand sanitizer that contains at least 60% alcohol. Wash your hands before meals, after using the restroom and after coughing and sneezing.

- Cover your coughs and sneezes with a tissue, and then dispose of the tissue and clean your hands immediately. If you do not have a tissue, use your elbow (not your hands).

- Do not touch your mouth, eyes, nose with unwashed hands.

- Avoid contact with people who are sick.

- Avoid sharing items such as phones or other devices. If devices must be shared be sure to wipe them down with a disinfectant wipe before and after sharing.

- Constantly observe your work distances in relation to other staff. Always maintain the recommended minimum 6 feet separation from others unless specific work assignments require less distancing and wear a face cloth covering when working near or with others.
- Disinfect frequently touched objects and surfaces such as workstations, keyboards, telephones, handrails, machines, shared devices, and doorknobs. This should be done hourly during business hours.

- Copies of this Protocol have been distributed to all employees.

### B. MAINTENANCE PROTOCOLS

- Group gatherings are prohibited, and benches and tables are removed or cordoned off because they can’t be used.
- Commonly used items will be sanitized regularly.
- Commonly used equipment shall be sanitized before and after each use.
- Restrooms will be sanitized regularly.
- Water fountains shall be available to fill water bottle use only

### C. MONITORING PROTOCOLS

- Instructional and informational signage is posted throughout the facility regarding infection control, physical distancing, and the use of face coverings.
- Facility Operators conduct periodic visits daily to monitor that participants are complying with the restrictions.
- Facility Operators consider restricting the use of the model plane area to a maximum of two (2) hours for each visit by the participant.
- Participants are asked to leave if not complying with these restrictions.

Any additional measures not included above should be listed on separate pages, which the business should attach to this document.
