Recent Updates (Changes are highlighted in yellow):
1/28/21: Small Water Vessel Charters and Recreational Equipment Rental may reopen for business in compliance with this protocol. Employees must wear a face covering at all times except when they are alone in a closed office or when eating or drinking. Break rooms must have posted occupancy limits and must be reconfigured to enable physical distancing. Screening of employees and customers must include a check about whether the individual is currently under isolation or quarantine orders.

The County of Los Angeles Department of Public Health is adopting a staged approach, supported by science and public health expertise, to allow certain businesses to safely reopen. The requirements below are specific to businesses offering small water vessel charters. These charter companies must be in compliance with the conditions laid out in this Checklist.

In the protocols that follow, the term “household” is defined as “persons living together as a single living unit” and shall not include institutional group living situations such as dormitories, fraternities, sororities, monasteries, convents, or residential care facilities, nor does it include such commercial living arrangements such as boarding houses, hotels, or motels.1 The terms “staff” and “employee” are meant to include employees, volunteers, interns and trainees, scholars and all other individuals who carry out work at the site. The term “visitors” or “customers” should be understood to include members of the public and others who are not staff or employees who spend time at the business or site. The terms “establishment”, “site”, and “facility” both refer to the vessel, building, grounds, and any adjacent buildings or grounds at which permitted activities are conducted.

Please note: This document may be updated as additional information and resources become available so be sure to check the LA County website http://www.ph.lacounty.gov/media/Coronavirus/ regularly for any updates to this document.

This checklist covers:

1. Workplace policies and practices to protect employee health
2. Measures to ensure physical distancing
3. Measures to ensure infection control
4. Communication with employees and the public
5. Measures to ensure equitable access to critical services.

These five key areas must be addressed as your facility develops any reopening protocols.

All businesses covered by this guidance must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is not applicable to the business.

Business name: 

Facility Address: 

Date Posted: 

A. WORKPLACE POLICIES AND PRACTICES TO PROTECT EMPLOYEE HEALTH (CHECK ALL THAT APPLY TO THE FACILITY)

- Everyone who can carry out their work duties from home has been directed to do so.
- Vulnerable staff (those above age 65, those with chronic health conditions) are assigned work that can be done from home whenever possible.
- All employees have been told not to come to work if sick and to follow DPH guidance for self-isolation if applicable.
- Workers are provided information on employer or government-sponsored leave benefits the employee may be entitled to receive that would make it financially easier to stay at home. See additional information on government programs supporting sick leave and worker’s compensation for COVID-19, including employee’s sick leave rights under the Families First Coronavirus Response Act and employee’s rights to workers’ compensation benefits and presumption of the work-relatedness of COVID-19 pursuant to the Governor’s Executive Order N-62-20.
- Upon being informed that one or more employees test positive for, or has symptoms consistent with COVID-19 (case), the employer has a plan or protocol in place to have the case(s) isolate themselves at home and require the immediate self-quarantine of all employees that had a workplace exposure to the case(s). The employer’s plan should consider a protocol for all quarantined employees to have access to or be tested for COVID-19 in order to determine whether there have been additional workplace exposures, which may require additional COVID-19 control measures.
- Employee screenings are conducted before employees may enter the workspace, in compliance with the DPH Employee Screening guidance. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and if the employee is currently under isolation or quarantine orders. These checks can be done remotely or in person upon the employees’ arrival. A temperature check should also be done at the worksite if feasible.
- In the event that 3 or more cases are identified within the workplace within a span of 14 days the employer should report this cluster to the Department of Public Health at (888) 397-3993 or (213) 240-7821 or online at www.redcap.link/covidreport. If a cluster is identified at a worksite, the Department of Public Health will initiate a cluster response which includes providing infection control guidance and recommendations, technical support and site-specific control measures. A public health case manager will be assigned to the cluster investigation to help guide the facility response.
- Employees who have contact with others are offered, at no cost, an appropriate face covering that covers the nose and mouth. The covering is to be worn by the employee at all times during the workday when in contact or likely to come into contact with others. Employees who have been instructed by their medical provider that they should not wear a face covering must wear a face shield with a drape on the bottom edge, to be in compliance with State directives, as long as their condition permits it. A drape that is form...
fitting under the chin is preferred. Masks with one-way valves must not be used. All employees must wear a face covering at all times except when the employee is alone in a private office with a closed door or when eating or drinking. The exception made previously for employees working in cubicles with a solid partition that exceeds the height of the employee when standing is overridden until further notice.

- Employees are instructed to wash or replace their cloth face coverings daily after use.
- To ensure that masks are worn consistently and correctly, employees are prohibited from eating or drinking except during their breaks when they are able to safely remove their masks and physically distance from others. At all times when eating or drinking, employees must maintain at least a six-foot distance from others. When eating or drinking, it is preferred to do so outdoors and away from others, if possible. Eating or drinking at a cubicle or workstation is preferred to eating in a breakroom if eating in a cubicle or workstation provides greater distance from and barriers between workers. COVID-19 transmission is more likely to occur when employees are present together when not wearing face coverings.

- Occupancy is reduced and space between employees is maximized in any room or area used employees for meals and/or breaks. This has been achieved by:
  - Posting a maximum occupancy sign that is consistent with enabling a distance of at least six feet between individuals in rooms or areas used for breaks; and
  - Staggering break or mealtimes to reduce occupancy in rooms or areas used for meals and breaks, and
  - Placing tables at least six feet apart and assuring six feet between seats, removing or taping seats to reduce occupancy, placing markings on floors to assure distancing, and arranging seating in a way that minimizes face-to-face contact. Use of partitions is encouraged to further prevent spread but should not be considered a substitute for reducing occupancy and maintaining physical distancing.

- Where possible, outdoor break areas have been created and are equipped with shade covers and seating that enables employees to maintain a 6-foot physical distance at all time from others.

- Employers should consider where disposable glove use may be helpful to supplement frequent handwashing or use of hand sanitizer; examples are for employees who are screening others for symptoms or handling commonly touched items.

- Staggered start times for staff and split shifts are put in place to limit the number of staff on site, at team meetings, at lunch breaks, and during departure times. No one is allowed to congregate in groups.

- Staff meetings are held in open air spaces in order to maintain physical distancing.

- No visitors or sales representatives are allowed on or within the facility. This includes outside distributors and manufacturer representatives. Meetings are held via telephone, zoom or other virtual platforms.

- Employees are required and permitted adequate time to wash or sanitize their hands every 30 minutes or as needed. Locker room facilities are cleared of all belongings. Additional uniforms, gear and all belongings can be kept in personal vehicles on-site. No personal belongings are allowed to be stored on-site.

- The use of the breakroom facility common use items (e.g., coffee pots, vending machines, refrigerators and microwaves) has been suspended. Personal coolers are suggested for meals/personal beverages and should be stored in personal vehicles.

- In compliance with wage and hour regulations, breaks are staggered to ensure that six (6) feet between employees can be maintained in break areas at all times.

- Employees are prohibited from eating or drinking anywhere inside the workplace other than designated break areas to assure that masks are worn consistently and correctly.

- To the extent possible, each worker is assigned their own tools, equipment, and defined workspace.
Sharing held items is minimized or eliminated.

Workers are provided time during their shifts to implement cleaning practices. Cleaning assignments should be assigned during working hours as part of the employee’s job duties.

Management will set guidelines for cleaning facilities daily; with more frequent cleaning of all key touch points (doorknobs, restrooms, tables, chairs, sinks, computers/keyboards etc.).

All workstations are separated by at least six feet.

Employees have been instructed to maintain at least a six (6) feet distance from customers and from each other in all areas of the store. Employees may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary.

Employee restrooms are not available for customer use.

Break rooms, restrooms and other common areas are disinfected frequently, on the following schedule:

- Break rooms
- Restrooms
- Other

Disinfectant and related supplies are available to employees at the following location(s):

Hand sanitizer effective against COVID-19 is available to all employees at the following location(s):

A copy of this protocol has been distributed to each employee.

All policies described in this checklist other than those related to terms of employment are applied to staff of delivery and any other companies who may be on the premises as third parties.

Optional—Describe other measures:

B. MEASURES TO ENSURE PHYSICAL DISTANCING

Indoor portions of the business must be closed to the public. Rental equipment must be available on the charter or made available to customer via pick up at the curbside, door side, or other outdoor or outside pickup.

The crew allowed on a water vessel during a charter is limited to one employee necessary to operate the water vessel and one additional crew member. Physical distancing must be maintained between the crew and customers.

Charters are limited to individuals or members of the same household only. Gatherings and charters that allow more than one household at a time are prohibited.

The number of individuals allowed in interior spaces of a water vessel, such as a cabin, shall be limited to allow for physical distancing of 6ft or more.

Inform customers of all safety protocols ahead of time.

All employees and customers must use cloth face coverings at all times.

Reservations are required and customers are encouraged to pre-pay using debit/credit cards at the time of reservation.

On-site payment of fees is done from an existing outdoor facing starter window or from a check-in table.
outside the facility. Six-foot physical distancing markings are installed to let customers know where to wait to pay. Touchless payment is used, where feasible.

☐ Encourage payment by gift, debit, or credit card.

☐ Physical space between employees and customers increased (e.g. partitions, plexiglass at point of sale locations)

☐ Reservations are no less than 10 minutes apart. Customers are encouraged to come to the facility no more than 10 minutes before the time expected to start the charter.

☐ Markings or delineators are set up to create a six-foot barrier to minimize close contact between employees and the public inside the charter office.

☐ Customers are required to leave the property immediately once their charter time has expired. No congregating or tailgating in the parking lot is allowed.

☐ Any education or explanation of how to use rental equipment or safety instruction for the charter must be done by video or staff must be 6ft from customers.

☐ Retail sales or rentals are for curbside pickup only except where the rental equipment is made available on the charter for the customer. All merchandise sales are final. Facility doors are propped open wherever possible.

☐ Require that employees whose duties require close contact with other employees and/or the public wear Face Coverings.

☐ Customers are instructed that they must wear cloth face coverings to be served. This applies to all adults and to children over the age of 2. Only individuals with chronic respiratory conditions or other medical conditions that make use of a mask hazardous are exempted from this requirement.

☐ Customers arriving at the site with children must ensure that their children stay next to a parent, avoid touching any other person or any item that does not belong to them, and are masked if age permits.

C. MEASURES FOR INFECTION CONTROL

☐ Visitors arriving at the establishment are reminded to wear a face covering at all times (except while eating or drinking, if applicable) while in the establishment or on the grounds of the establishment. The face covering is to be worn, covering both the nose and mouth at all times when in contact or likely to come into contact with others. Persons who have been instructed by their medical provider that they should not wear a face covering should wear a face shield with a drape on the bottom edge, to be in compliance with State directives, as long as their condition permits it. A drape that is formfitting under the chin is preferred. Masks with one-way valves should not be used. This applies to all adults and to children 2 years of age and older. To support the safety of your employees and other visitors, a face covering should be made available to visitors who arrive without them.

☐ Symptom checks are conducted before visitors may enter the facility. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and whether the individual is currently under isolation or quarantine orders. These checks can be done in person or through alternative methods such as on-line check in systems or through signage posted at the entrance to the facility stating that visitors with these symptoms should not enter the premises.

☐ Public counters and service windows are frequently sanitized with disinfectant effective against COVID

☐ Employees are assigned to disinfect high touch surfaces frequently.

☐ The water vessel and each item of equipment rented must be wiped down in its entirety with disinfectant effective against COVID-19 after each use.

☐ Employees are assigned to disinfect rental equipment and the water vessel between uses.
Hand sanitizer, soap and water, or effective disinfectant/wipes is made available to customers at or near each entrance to the facility at any restrooms, and other main points of contact.

Trash cans are touchless. Lids have been removed if present.

All restrooms are serviced and disinfected frequently. Doors are propped open when possible to minimize touching of door handles or surfaces.

The HVAC system at the charter office is in good, working order; to the maximum extent possible, ventilation has been increased. Consider installing portable high-efficiency air cleaners, upgrading the building’s air filters to the highest efficiency possible and making other modifications to increase the quantity of outside air and ventilation in offices and other spaces.

Contactless payment systems are in place or, if not feasible, payment systems are sanitized regularly.

Describe:

Where possible, hands-free devices, including motion sensor lights, automatic soap and paper towel dispensers and timecard systems have been installed.

Workspaces and the entire facility are cleaned at least daily, with restrooms and frequently touched areas/objects cleaned more frequently.

Hand sanitizer (with at least 60% alcohol) and/or hand washing facilities, including soap, water, and paper towels, must be made available to customers on the water vessel.

Drinking fountains and water coolers have been removed or covered.

Hand sanitizer, tissues and trash cans are available to the public at or near the entrance of the facility.

Optional - Describe other measures (e.g. providing senior-only hours, incentivizing non-peak sales):

D. MEASURES THAT COMMUNICATE TO THE PUBLIC

A copy of this protocol is posted at all public entrances to the facility.

Signage at the entry and/or where customers line up notifies customers of options for and advantages preordering and prepayment.

Instructional and informational signage is posted throughout the outdoor facility regarding infection control, physical distancing, and the use of face coverings.

Online outlets of the establishment (website, social media, etc.) provide clear information about store hours, required use of face coverings, policies in regard to preordering, prepayment, pickup and/or delivery and other relevant issues.

Instructional signage is posted on the water vessel regarding physical distancing.

Friendly, yet firm communication with any patron violating the required safety protocols is carried out. Patrons are reminded that any violation of Physical Distancing Protocols will jeopardize the continued operation of local outdoor recreation rental businesses.

E. MEASURES THAT ENSURE EQUITABLE ACCESS TO CRITICAL SERVICES

Transactions or services that can be offered remotely have been moved online.

Measures are instituted to assure access to goods and services for customers who have mobility limitations and/or are at high risk in public spaces.
Any additional measures not included above should be listed on separate pages, which the business should attach to this document.
