

COVID-19 Updated Vaccines Now Available

for Children Ages 6 Months - 5 Years

Updated Moderna Booster

Children ages 6 months through 5 years who completed a Moderna primary series should get an updated Moderna booster 2 months after completing their primary series.

Updated Pfizer Vaccine

Children ages 6 months through 4 years who have received 2 doses of the primary Pfizer vaccine will receive an updated Pfizer vaccine as their third dose.

Children 6 months through 4 years of age who finished their Pfizer vaccine primary series cannot get an updated vaccine at this time.
