

COVID-19 MEDICINE AVAILABLE NOW

PREVENTION MEDICINES

If you have a significantly **weakened immune system**, or you can't get a COVID-19 vaccine for medical reasons, there is a new medicine to help **prevent infection**.

TREATMENT MEDICINES

If you are at **high risk**, you may be able to get treatment to help keep you out of the hospital.

DON'T DELAY:

Ask your doctor about medicines to **prevent and treat people** who are at risk for developing severe COVID-19.

- **Prescription** only.
- **Limited** supply.
- **Free** (ask the facility if there are administration fees and what your insurance covers).
- Covered by **Medicare** and **Medicaid**.
- Contact a doctor if you **test positive and have symptoms**, even if they are mild.
