Assault hospitalizations were identified using International Classification of Disease 9th Revision codes E960-E969.

Note: "--" indicates that rates could not be calculated because population data was not available.

Rates for age group are per 100,000 population. All other rates are per 100,000 population and age adjusted to the 2000 US population.

The small number of patients of unknown gender are combined with females.

The small number of patients of unknown SPA are combined with SPA 2: San Fernando.
