

# Preparing the Specialty SUD System in Los Angeles County for Payment Reform

**January 24, 2023** 

Division of Substance Abuse Prevention and Control Los Angeles County Department of Public Health

## **Updates from the State – DHCS and County Next Steps**

- The California Department of Healthcare Services (DHCS) launches payment reform in July 2023. DHCS rates are between the State and County NOT providers
  - Mid-November DHCS provided outpatient rates
  - On January 23, 2023 DHCS provided inpatient withdrawal management (WM) rates
  - Pending DHCS residential, residential WM, outpatient WM, and OTP rates
- SAPC is preparing for payment reform as follows:
  - Analyzing DHCS provided rates to determine appropriate provider-level rates and incentives
  - Collaborating with providers on service delivery costs by level of care
  - Meeting with providers monthly to discuss updates and obtain feedback

# Payment Reform - Where is the Substance Use Disorder (SUD) System Headed?

Changes in 2023 and beyond

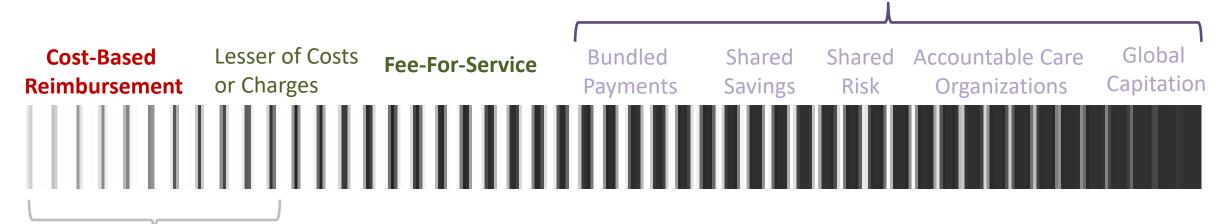

Level-Setting / Refresher Slides

## **REMINDER** Behavioral Health (BH) Payment Reform

#### Value-Based Reimbursement

(various arrangement types)

### The PAST:

Transition from Preto Post-DMC-ODS

#### The PRESENT:

Transition from DMC-ODS to BH Payment Reform under CalAIM

### The FUTURE:

Transition from FFS with incentive payments based on quality benchmarks, to some form of value-based reimbursement (likely capitation per DHCS)

## **PAST: Cost-Based**

- July 2017 June 2023
- Provisional FFS rate
- Volume-based (more services, more compensation)
- Contract reconciled at lesser of allowable costs or State approved claims
- Recoupments if costs are lower than rates paid
- Reinvest in program if rates higher only during current FY or excess recouped

## **Payment Reform: FFS**

- July 2023 Approx. 2025
- Fixed FFS rate
- Volume-based (more services, more compensation)
- Contract not cost reconciled as based on State approved claims only
- No recoupments if costs are lower than rates paid
- Reinvest in program if rates higher than current costs during or after current FY

## **Future: Value-Based**

- Approximately 2025+
- Capitation / Value-Based:
   Bundled rate for all services a patient needs, County and possibly providers
- Outcome-Based: Must provide enough quality-based services at right level of care to show patient improvement
- No additional payments or recoupments for losses or gains
- Invest in organization (staff, trainings, etc) to improve outcomes and avoid losses

## What could this look like if DHCS sets rates sufficiently higher than current rates?

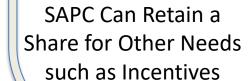

Party Approved
Rate for Los
Angeles County
(SAPC)

SAPC Retain a Share to Cover County Costs or Services

rates with providers for all levels of care and in consideration of any differential rates by population etc. if determined

All providers
receive
reimbursement
based on the
volume of
approved services
delivered

Only providers
who meet quality
goals receive
supplemental
incentive
payments

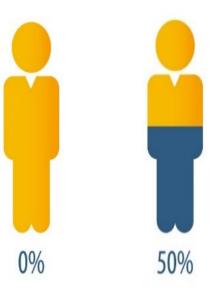

## Why do the rates paid to providers matter to the County / SAPC?

State/Federal Share →

For most services and levels of care, Counties are responsible for paying a share of each DMC reimbursed service with non-federal funds.

This means Counties need to set rates at a level that move the SUD system forward but are affordable given available matching funds.

Basic Medi-Cal Financing for SUD Treatment Services

Drug Medi-Cal
Funding Commitment:

Federal/State Share

Local (LAC) Share

County Pays
100% of the Claim
Minor Consent & 50% of the Claim
Medi-Cal Eligible
Coverage of Income
Eligible 26-49 Years of Age Affordable Care Act
Regardless of Immigration
Status

County Pays
0% of the Claim
Medi-Cal Eligible
Before
fordable Care Act

County Pays
10% of the Claim
Medi-Cal Eligible
After
Affordable Care Act

0% of the Claim
Expanded Medi-Cal Eligibility to
0-25, 50+ Years of Age
Due to Immigration Status

## How Tiered Rates Could Work – Factoring Practitioner Level (Not to Scale ♥)

Incentives Based on Verifying Performance Metrics

Incentives Based on Verifying Performance Metrics

Providers that make investments that enhance care  $\rightarrow$  able to move up the next tier to access higher rates

#### FOR MORE INFORMATION ON PAST PRESENTATIONS

- Payment Reform Meeting December 13, 2022
  - Presentation PDF: <u>Link</u>
  - Presentation Video: Link

## **REMINDER**

The payment reform provider meeting series is intended to provide a forum to discuss how rates and reimbursement is expected to change beginning July 2023. Because these discussions are happening before DHCS has provided full information on rates and DPH-SAPC has been able to fully evaluate feasibility of rates for FY 23-24 and strategies to support optimal SUD treatment services, content is considered conceptual and draft, and may change. Only when DPH-SAPC has full visibility on all DHCS rates and the impact of State decisions, can a final rates/reimbursement approach be determined.

## **Practitioner Level Rates Concept**

#### **NEW PRACTITIONER LEVEL RATES**

Sage Fee Type	Staff Count	% of Staff
Registered SUD Counselor/Other Provider	677 Staff	50%
Certified SUD Counselor	416 Staff	31%
License Eligible - LPHA	136 Staff	10%
Licensed - LPHA	128 Staff	9%
Licensed Marriage and Family Therapist	1 Staff	0%
Total	1,358 Staff	100%

What is the mix of practitioner level(s) that deliver services at your agency?

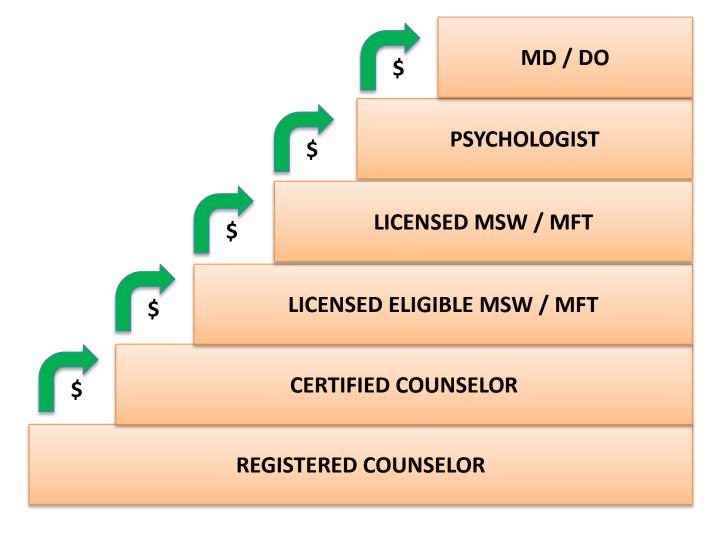

Fiscal Year	Practitioner Disciplines	Service Count	% of Services
FY21-22	Certified SUD Counselor	266,417	38%
FY21-22	License Eligible - LPHA	50,226	7%
FY21-22	Licensed - LPHA	29,746	4%
FY21-22	Licensed Marriage and Family Therapist	131	0%
FY21-22	Registered SUD Counselor/Other Provider	347,272	50%
	Total	693,792	100%

Would higher rates allow your agency to further diversify staffing?

Above table based on all outpatient claims

## **Practitioner Level Rates Concept – Example**

The concept is that practitioner level rates will increase based on practitioner type (orange boxes).

## What are some advantages of practitioner specific rates?

- Incentivizes providers to diversify workforce that delivers direct services.
- Better supports increased costs for licensed/licensed-eligible positions.
- Creates opportunities to invest in strategies to address workforce shortages and turnover (e.g., salaries, benefits, recruitment incentives).
- Enables use of Medical Director or other MD/DO to deliver medications for addiction treatment (MAT) services.

What do outpatient practitioner specific rates mean?

Practitioner level rates are only available when the specified practitioner **<u>DELIVERS</u>** the **<u>DIRECT</u>** service.

Administrative functions (e.g., quality improvement, validating assessments, training) are **NOT** directly reimbursed and will **NOT** benefit from higher practitioner level rates.

#### **PROVIDER DISCUSSION**

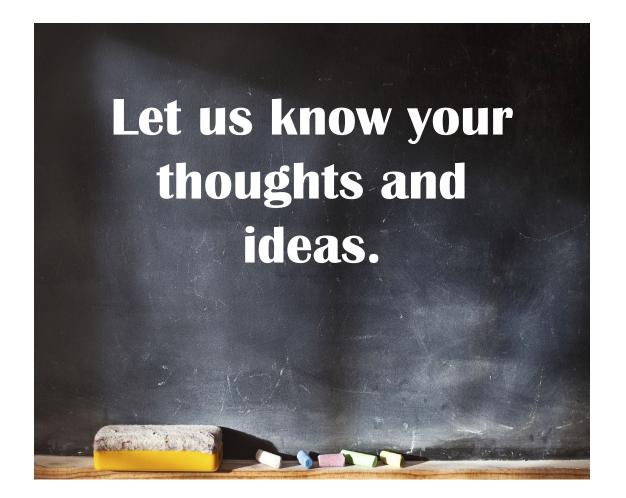

- How would practitioner level rates for outpatient services change who delivers direct services?
- Would you increase the types of services provided (e.g., MAT prescribing) with practitioner level rates, if so, how?

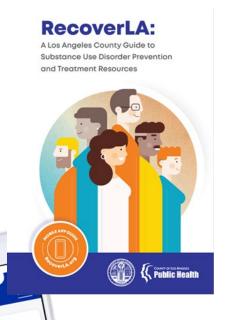

#### **PROVIDER DISCUSSION**

- Do you have other questions or comments related to this presentation?
- Do you have other questions or comments related to the 12/13/22 payment reform meeting or 1/10/23 provider meeting?
