Monthly Practitioner Update Summary Description

❖ Each month the NACA will be **pre-populated** with updates on from Sage.

❖ Providers will be notified that changes have been made to the practitioner list for each site location.

❖ Each month providers will be asked to:
1. **Update** the pre-populated practitioner information for each site.
2. **Add** any new practitioners that have not been pre-populated.
3. **Delete** practitioners no longer associated with the site.
4. **Confirm** all changes have been completed.

❖ SAPC verifies any newly added practitioners to ensure that they are onboarded to Sage. If not, the licensed practitioners will not be included in SBAT and SAPC will follow-up with providers.

❖ SAPC updates the SBAT with onboarded licensed practitioner information.
