

**LOS ANGELES COUNTY DEPARTMENT OF PUBLIC HEALTH - SUBSTANCE ABUSE PREVENTION AND CONTROL
PREVENTION PROVIDER CONTACT LIST: ADOLESCENT PREVENTION SERVICES (APS)**

ADOLESCENT PREVENTION SERVICES (APS) target youth ages eight (8) through seventeen (17) and their families/caregivers and/or young adults ages eighteen (18) through twenty-four (24), who are at risk of or who have initiated experimentation and use of alcohol and other drugs. APS services are those which are directed at reducing risk factors and increasing protective factors. Risk factors increase the likelihood of beginning substance use, or regular and harmful use, and of other behavioral health problems associated with use. Protective factors directly decrease the likelihood of substance use and behavioral health problems or reduce the impact of risk factors on behavioral health problems.
